PROFILE

Third-year Computer Science student at MAKAUT with hands-on experience across full-stack web development, Android app development, and backend systems. Comfortable working end-to-end from UI and design systems to APIs and data layers ,and currently exploring cybersecurity and cryptography through an independent project. Seeking a Software Engineering internship to contribute across the stack on a real product team.

PROJECTS

SkillDeal — Peer Skill Exchange Platform

React · Node.js · Express · PostgreSQL

Full-stack web platform connecting college students based on skills they can teach and learn. Built user profiles, skill matching, messaging, exchange requests, leaderboard, and achievement tracking across a 7-page responsive UI with a custom design system.
